EVALUATION INSTRUMENT: TECHNOLOGY ACCEPTANCE OF NEXIAM

First-Year College Student

Project Title: NEXIAM: A Role-Based College Admission Testing System for the Guidance and Registrar Offices at ISPSC Tagudin Campus

Researchers: David Datu N. Sarmiento, Jaypee G. Pagaduan, Christine M. Lopez
Capstone Adviser: Dr. Zeus Vincent Mendoza

PART I: EVALUATOR PROFILE AND INFORMED CONSENT

Participant Informed Consent:

This evaluation seeks to measure your operational experience and user acceptance of the newly developed NEXIAM platform. Your participation involves completing a hands-on simulated workflow scenario followed by this evaluation questionnaire. In strict compliance with Republic Act No. 10173 (Data Privacy Act of 2012), all responses will be kept confidential, analyzed only in aggregate form, and used solely for academic research. Participation is voluntary.

PART II: EVALUATION INSTRUCTIONS AND RATING BENCHMARK

Rate only the functions or result sheets you used during the assigned tasks. Check one response per statement. Answer only the questionnaire for your assigned role.

5: Strongly Agree 4: Agree 3: Neutral

2: Disagree 1: Strongly Disagree

Neutral means neither agreement nor disagreement. If a function was not available, not permitted, or not tested, tell the facilitator and leave its item unanswered. If you tried a function but could not complete the task, you may rate it based on that experience. Do not use Neutral to report an untested function. Task problems and help received are recorded separately.

Continue to the questionnaire on the next page. Feedback follows the questionnaire.
